Experience

Masonite International / Full Stack Java Developer

MAY 2018 - PRESENT, Tampa, FL

- Performing continued support and implementation of Advisar.com using TDD, microservices, Spring Framework, Google Cloud, Kubernetes, Docker, Postgres, Git, React, and paired-programming

Kobie Marketing Inc. / Mid. Java Developer

JANUARY 2017 - MAY 2018, St Petersburg, FL

- Performing continued support and implementation of Java application which automates full process client requested campaigns end-to-end which is where the clean architecture, TDD, design principles, microservices,, and design patterns come in
- Continued implementation of all Kobie clients into application
- Working closely with Data Science director for implementation of machine learning/AI into campaign building and customer satisfaction

Kobie Marketing Inc. / Junior Java Developer

FEBRUARY 2016 - DECEMBER 2017, St Petersburg, FL

- Developed multiple daily processing jobs using Spring Batch, Java, and PostgreSql for processing of over 50 million transactions a month and for tens of millions of accounts
- Developed campaigns for Synchrony Financial and their clients: Gap (which includes Banana Republic, Gap, Old Navy, and Athleta), TJX (which includes TJMaxx, Marshalls, Sierra Trading

Post, and Homegoods)
- Automated campaign process which is how I was promoted

Freelancing / Web and Game development
FEBRUARY 2015 - JANUARY 2016, St Petersburg, FL
- Built website for a real estate company in Ohio
- Created a few games (the only one still out there is Fi Guy for the Google Play store)

Deloitte - Contracting / Java Developer
NOVEMBER 2014 - FEBRUARY 2015, Lake Mary, FL
- Spent two months of intense training in Java and Spring
- Final project was given by Deloitte using all the accumulated skills
- I was hand-picked along with ten others out of twenty-two by Deloitte to work as a Java Developer

---
